Z S Ch ZSCHIMMER & SCHWARZ

leXolube synthetic esters

Safety Data Sheet according to 29 CFR 1910.1200/ HazCom 2012 and Regulation (EC) No. 1907/2006 Date of Issue: 8/10/2015 Revision Date: 8/7/2018 Version: 2.0

tion 1: Identification of the	e substance/mixture and of the company/undertaking	
Product Identifier		
Product name:	Lubricit 3013/1-DF	
Synonyms:	Tri-isotridecyl Trimellitate	
CAS (EC) No.:	72361-35-4 (276-594-2)	
Relevant identified uses of	the substance or mixture and uses advised against	
Use of the substance/mixture	e: Lubricant/Plasticizer	
Uses advised against:	None known	
B Details of the supplier of the	e safety data sheet	
Zschimmer and Schwarz, Inc. 70 GA Hwy. 22 W Milledgeville, GA 31061 Phone: (478) 454-1942 Fax: (478) 453-8854		
Emergency telephone numb	ber	
Emergency number:	CHEMTREC: (800) 424-9300	
tion 2: Hazards identificati	ion	
Classification of the substa	ince or mixture	
Product definition:	Substance	
Classification (GHS-US and F	Regulation (EC) No. 1272/2008)	
Not classified as hazardous pe	er the above regulations	
Label Elements		
Labeling (GHS-US and Regul	lation (EC) No. 1272/2008)	
Hazard pictograms:	None	
Signal Word:	None	
Hazard statements:	None	
Precautionary statements:	None	
tion 3 – Composition/infor	rmation on ingredients	
Substance		
Objective to a transmission		

Chemical nature:

Aromatic ester

Chemical Name	CAS No. (EC No.)	Concentration
1,2,4-Benzenetricarboxylic acid, 1,2,4-triisotridecyl ester	72361-35-4 (276-594-2)	100%

3.2 Mixture

Not applicable, product is a substance.

This is not intended to be a complete compositional disclosure. See Section 8 for Exposure Limits, if any.

Safety Data Sheet according to 29 CFR 1910.1200/ HazCom 2012 and Regulation (EC) No. 1907/2006

Section 4 - First aid measures

4.1 Description of first aid measures

- Inhalation: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If breathing is difficult or respiratory irritation develops, get medical attention.
- Skin Contact: Wipe away excess material with a dry towel, then wash with soap and water for several minutes. Remove contaminated clothing and shoes. If a rash or skin irritation occurs, contact a physician.
- Eye Contact: Flush with copious amounts of water for at least 15 minutes, lifting eyelids for maximum effectiveness. Get medical attention if irritation develops or persists.
- Ingestion: If swallowed, rinse mouth with water. Observe victim for 24 hours. Do NOT induce vomiting. If vomiting occurs, keep head lower than hips to prevent aspiration. If large amounts were ingested, consult a physician/poison control center. Never give anything by mouth to an unconscious person.

4.2 Most important symptoms and effects, both acute and delayed

Potential health symptoms and effects						
Inhalation:	Mists may cause irritation of the respiratory tract.					
Skin:	May cause mild skin irritation upon prolonged or repeated contact in the most sensitive of individuals.					
Eyes:	May cause mild eye irritation in the most sensitive of individuals.					
Ingestion:	May cause gastrointestinal distress.					
) Indication of any immediate mediate letteration and enabled treatment needed						

4.3 Indication of any immediate medical attention and special treatment needed

Treat symptomatically and supportively.

Section 5 - Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media: Water spray, dry chemical, alcohol foam, or carbon dioxide.

Unsuitable extinguishing media: Water jet.

5.2 Special hazards arising from the substance or mixture

Closed containers may explode due to the buildup of pressure when exposed to extreme heat. Under fire conditions, product may undergo thermal decomposition and emit toxic fumes of CO_x.

5.3 Advice for firefighters

Full protective equipment including self-contained breathing apparatus and protective clothing should be used. Water may be used to cool containers to prevent pressure buildup and possible rupture when exposed to extreme heat. If possible, water contaminated by this material should be contained and prevented from being discharged to any waterway, sewer, or drain to avoid environmental contamination.

Section 6 - Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Avoid contact with skin and eyes. Wear protective gloves, eye protection, and face protection. Keep people away from and upwind of spill/leak. Ensure adequate ventilation, especially in confined areas.

6.2 Environmental precautions

Avoid dispersal of spilled material or runoff and prevent contact with soil and entry into drains, sewers, and waterways.

6.3 Methods and materials for containment and cleaning up

Cover drains and contain spill. Take up with inert absorbent material (e.g. vermiculite, general purpose binder). Shovel or sweep up product and place into an approved container for proper disposal. Wash walking surfaces with detergent and water to reduce slipping hazard. Dispose of material in accordance with local, state and federal regulations.

6.4 Reference to other sections

Safety Data Sheet according to 29 CFR 1910.1200/ HazCom 2012 and Regulation (EC) No. 1907/2006

See section 13 for any additional waste treatment or disposal information.

Section 7 - Handling and storage

7.1 Precautions for safe handling

Avoid contact with skin and eyes. Wear protective gloves, eye protection, and face protection. Keep people away from and upwind of spill/leak. Ensure adequate ventilation, especially in confined areas. Wash contaminated clothing and shoes before reuse.

7.2 Conditions for safe storage, including any incompatibilities

Store in a cool, dry, and well-ventilated area away from incompatible materials (see Section 10.5). Keep container tightly closed. Protect containers from physical damage. Containers may be hazardous when empty as they contain product residues.

7.3 Specific end uses

Apart from uses mentioned in Section 1.2, no other uses are specified.

Section 8 - Exposure controls/personal protection

8.1 Control parameters					
Component/CAS No.		Basis	Туре	Value	Remarks
None					-
8.2 Exposure Controls					
Engineering Measures:	Safety measures and ap protective equipment a s mists or vapors. Facility s	econdary measur	e. Use adequate	e ventilation to re	educe the exposure of
Hygiene Measures:	Avoid contact with eyes of bathroom use.	or skin. Wash har	nds thoroughly at	fter use and befo	ore eating, drinking or
Personal Protective Equipment (PPE):					
Hand Protection:	Wear gloves recommend	led by glove supp	olier as imperviou	is to materials in	Section 3.

Wear protective goggles or safety glasses with side shields and/or full face shield.

Skin Protection: Wear protective clothing.

Respiratory Protection: If ventilation is limited or use may generate aerosols or mists, use full-face respirator with multipurpose cartridges.

Section 9 - Physical and chemical properties

Eye Protection:

9.1 Information of basic physical and chemical properties

Form and Appearance:	Clear to slightly hazy, yellow to amber liquid	Odor:	Faint						
pH:	N/A	Odor Threshold:	N/D						
Boiling Point:	> 554°F (290°C)	Melting/Freezing point:	~ -22°F (-30°C) (pour point)						
Vapor Pressure:	< 0.01 mmHg @ 20°C	Vapor Density (Air=1):	N/A						
Flash Point:	~ 554°F (290°C)	Evaporation Rate:	N/A						
UEL:	N/D	LEL:	N/D						
Viscosity:	~ 320 cSt @ 40°C	Solubility in Water:	Insoluble						

Safety Data Sheet according to 29 CFR 1910.1200/ HazCom 2012 and Regulation (EC) No. 1907/2006

Coefficient:	N/D	Specific Gravity/Bulk Density:	~ 0.95 @ 25°C
Auto-ignition temperature:	N/D	Decomposition Temperature:	N/D
Volatile content:	< 0.1%	VOC Data:	N/D
Other information			
No data available.			
ion 10 - Stability and reactiv	<u>ity</u>		
I Reactivity			
None known.			
2 Chemical stability			
Product is stable under ordinary of	-		
3 Possibility of hazardous read			
Will not occur under ordinary cond	ditions of use and storage.		
4 Conditions to avoid	ale mainture and outrome has	*	
Contact with incompatible materia 5 Incompatible materials	als, moisture, and extreme nea	at.	
Strong oxidizers, strong acids.

Safety Data Sheet according to 29 CFR 1910.1200/ HazCom 2012 and Regulation (EC) No. 1907/2006

No data available

Specific Target Organ Toxicity – Repeated Exposure

No data available

Aspiration Hazard

No effects known

11.2 Further Information

This material is not listed as a carcinogen by IARC, ACGIH, NTP, or OSHA. No data is available regarding the mutagenicity or teratogenicity of this material in humans, nor is there available data that indicates that is causes adverse development or fertility effects in humans. Handle in accordance with good industrial hygiene and safety practice.

Section 12 - Ecological information

12.1 Toxicity

Acute and Chronic Aquatic Toxicity: LC50 (96h) – Fish: > WSL EC50 (48h) – Daphnia magna: > WSL

12.2 Persistence and Degradability

Not readily biodegradable, but is inherently biodegradable.

12.3 Bioaccumulation Potential

Expected to be low.

12.4 Mobility in Soil

No data available

12.5 Results of PBT and vPvB Assessment

Substance is not PBT / vPvB

12.6 Other Adverse Effects

Do not allow material to run into surface waters, wastewater, or soil.

Section 13 - Disposal considerations

13.1 Waste treatment methods

Methods of disposal: Unused product or empty containers may be disposed of as non-hazardous in accordance with local, state, provincial and national disposal regulations.

Hazardous waste: This material, as sold, is not considered a hazardous waste under RCRA 40 CFR 261.

Section 14 - Transport regulations

Land Transport (DOT, ADR/RID)

Not classified as dangerous in transport

Air Transport (IATA/ICAO)

Not classified as dangerous in transport

Marine Transport (IMDG)

Not classified as dangerous in transport

Safety Data Sheet according to 29 CFR 1910.1200/ HazCom 2012 and Regulation (EC) No. 1907/2006

Section 15 - Regulatory information

S. Federal Regulations
